HON. DEAN MARTIN
TREASURER

November 1, 2007

The Honorable Janet Napolitano Governor State of Arizona 1700 West Washington Phoenix, Arizona 85007

Dear Governor Napolitano:

It is a pleasure to submit my first Arizona State Treasurer's Annual Audited Financial Statement for the fiscal year that ended June 30, 2007.

It has been a busy six months of transition. The office is now fully staffed, and we have begun a complete business process re-engineering program to provide exceptional customer service and improve our fiscal management. As part of this process, we are opening up the state's finances, and making it easier for customers and the public to see what is happening with their funds. We now have the entire state shared revenue database online, updated and searchable daily by anyone.

The State Treasurer's Office ended fiscal year 2007 with a combined total of investments fair valued at \$12.0 billion.

At fiscal year end, June 30, 2007, the fair value of all Endowment Funds totaled \$2.4 billion, of which \$1.3 billion was invested in equities.

The fair value of non-endowment funds totaled \$9.6 billion from which \$448.6 million was distributed to pool participants.

Our custody of performance bond's cash and securities totaled \$2.7 billion with all negotiable securities held at a custodial institution.

State shared revenue distributions totaled \$10.8 billion in fiscal year 2007.

It is an honor and a privilege to serve the citizens of Arizona as State Treasurer. On behalf of the entire staff at the Treasurer's office, thank you for your interest in Arizona's finances. I encourage you to visit www.AzTreasury.gov to learn more about how we manage your money.

Sincerely,

Dean Martin
Arizona State Treasurer

DEBRA K. DAVENPORT, CPA

STATE OF ARIZONA OFFICE OF THE AUDITOR GENERAL

WILLIAM THOMSON DEPUTY AUDITOR GENERAL

Independent Auditors' Report

Members of the Arizona State Legislature

The Honorable Dean Martin State Treasurer

We have audited the accompanying financial statements of the fiduciary funds of the State of Arizona, Office of the Treasurer, as of and for the year ended June 30, 2007, as listed in the table of contents. These financial statements are the responsibility of the Office of the Treasurer's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the Office of the Treasurer's financial statements are intended to present the financial position, results of operations, and changes in financial position of only that portion of the fiduciary activities of the State of Arizona that is attributable to the transactions of the Office of the Treasurer. They do not purport to, and do not, present fairly the financial position of the State of Arizona as of June 30, 2007, and the changes in financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the fiduciary funds of the Office of the Treasurer as of June 30, 2007, the results of operations, and the changes in the financial position of its investment trust funds for the year then ended in conformity with U.S. generally accepted accounting principles.

As described in Note 4, the LGIP-LT pool is reported as an investment trust fund, beginning July 1, 2006. Previously, the pool was combined with the LGIP pool and reported as the LGIP investment trust fund. This change constitutes a change in the Office of the Treasurer's reporting entity.

Our audit was conducted for the purpose of forming an opinion on the financial statements of the Office of the Treasurer. The financial statements for the external investment pools and individual investment accounts listed as supplemental information in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole. The information in the letter from the State Treasurer, and the Summary of Cash on Deposit with Treasurer and accompanying note listed as supplemental information in the table of contents has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on such information.

In accordance with Government Auditing Standards, we will also issue our report on our consideration of the Office of the Treasurer's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters at a future date. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Debbie Davenport Auditor General

STATE OF ARIZONA OFFICE OF THE TREASURER NOTES TO FINANCIAL STATEMENTS June 30, 2007

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the State of Arizona, Office of the Treasurer (Treasurer) conform to accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

Reporting Entity - The Investment Trust Funds and Agency Funds account for the assets held by the Treasurer as custodian or fiscal agent for the various fund types of the State of Arizona as well as political subdivisions and public entities investing in the Local Government Investment Pool (LGIP), Local Government Investment Pool – Government (LGIP-GOV), Local Government Investment Pool – Long-Term (LGIP-LT), which was previously reported in the LGIP, and Individual Investment Accounts. See Note 4 for restatement of beginning net assets for the LGIP and the LGIP-LT pools.

Although reported as Investment Trust Funds and Agency Funds by the Treasurer, these funds become a part of the State of Arizona's governmental, proprietary, and fiduciary fund categories at the combined statewide level.

<u>Fund Accounting</u> - The Treasurer's accounts are maintained in accordance with the principles of fund accounting to ensure that limitations and restrictions on the Treasurer's available resources are observed. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds in accordance with the activities or objectives specified for those resources. Accordingly, the above-described financial transactions have been recorded and reported in the Investment Trust Funds and Agency Funds. A description of the fund types follows.

The Investment Trust Funds account for pooled and non-pooled assets held and invested by the Treasurer on behalf of state agencies and other governmental entities using the economic resources measurement focus.

The Agency Funds are custodial in nature and do not present results of operations or have a measurement focus. These funds are used to account for assets that the Treasurer holds for state departments, agencies, commissions, boards, and other governments in an agency capacity.

<u>Basis of Accounting</u> - The financial statements of the Investment Trust Funds and Agency Funds are presented on the accrual basis of accounting. Revenues or receivables are recognized when they are earned, and expenses or liabilities are recognized when they are incurred.

Net Asset Value - The Treasurer's investment policy requires the following. For the LGIP and the LGIP-GOV pools, the portfolio manager shall strive to maintain a Net Asset Value (NAV) of \$1.00 for the pool. For the LGIP-LT pool, the portfolio manager does not strive to maintain a NAV of \$1.00 for the pool because securities purchased have longer term maturity dates and are thus more susceptible to changing market conditions.

STATE OF ARIZONA OFFICE OF THE TREASURER NOTES TO FINANCIAL STATEMENTS June 30, 2007

NOTE 2 - ASSETS

Deposits and Investments - Arizona Revised Statutes (A.R.S.) §35-312, §35-313, and §35-314 authorize the Treasurer to invest operating, trust, and permanent endowment fund monies in permitted investments. A.R.S. and the Treasurer's Investment Policies designed to administer the statutes restrict investments to obligations of the U.S. Government and its agencies, obligations or other evidence of indebtedness of the state and certain local government subdivisions, negotiable certificates of deposit, bonds, debentures and notes issued by U.S. corporations, commercial paper issued by entities organized and doing business in the United States, bankers acceptances, collateralized repurchase agreements, money market mutual funds, domestic equities and other securities. The investment pool or fund is designed in a manner which may not permit all such investments to be made. In accordance with the requirements of the statutes, deposits and investments at June 30, 2007 included shares of fixed-income pools, collateralized repurchase agreements, bills, notes, and other obligations of the U.S. government and its agencies, corporate notes, corporate asset backed securities, corporate collateralized mortgage obligations, commercial paper, money market mutual funds, board funding obligations, and shares in S&P 400 and S&P 500 Index Pools.

The general disclosure requirements for deposit and investment policies for custodial credit risk, credit risk, concentration of credit risk and interest rate risk are set forth in the analysis of each area below. Arizona statutes do not allow foreign investments.

Custodial Credit Risk - Deposits and Investments

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, the deposits or collateral securities may not be recovered from an outside party. Custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty to a transaction, the value of the investment or collateral securities that are in the possession of an outside party may not be recovered.

In accordance with Arizona Revised Statutes and the State Treasurer's Investment Policy, deposits are held in an eligible depository with its principal place of business in the United States which is insured by the Federal Depository Insurance Corporation. The statute further authorizes the Treasurer to enter into an agreement with the trust department of any bank authorized to do business in this state for safekeeping and handling of securities. The safekeeping and handling of investments are conducted through a bank trust department authorized to do business in this state. Securities received by the custodian are held in the Treasurer's name in book-entry form. Underlying collateral securities for demand deposits, repurchase agreements, and tri-party repurchase agreements are held by the bank trust department and pledged on behalf of the State Treasurer's Office. Demand deposit, repurchase agreements, and tri-party repurchase agreements on deposits in the bank that are in excess of the insured amounts are collateralized at no less than 102%.

STATE OF ARIZONA OFFICE OF THE TREASURER NOTES TO FINANCIAL STATEMENTS June 30, 2007

NOTE 2 - ASSETS (Cont'd)

Investments

A.R.S. and the Treasurer's Investment Policy define the types of securities authorized as appropriate investments and the conditions for making investment transactions. The securities are reported at fair value on the Statement of Fiduciary Net Assets. In addition, securities are reported in aggregate, by pool and fund, under Composition of Investment Pools disclosure for cost and fair value amount.

The State Treasurer's Office invests in SEC-registered investment company shares that have readily available share prices. Fair values of securities are determined using Bank of New York (BONY) prices. BONY obtains prices from independent, industry recognized data vendors who provide values that are either exchange based or matrix based. Rules and tolerance levels within BONY's security master database are used to determine reasonable accuracy. Equities are priced utilizing the primary market close price. In the absence of a closed price, the mid, bid, or ask price will be utilized. The State Treasurer also compares all equity prices to Bloomberg's Index Alert. All bonds are priced using an evaluated price, the closing exchange price or the most recent exchange or quoted bid, except securities with a remaining maturity of 90 days or less are priced at amortized cost (amortizing premium/accreting discount on a straight-line to maturity method). The official price is normally the last traded price.

There is no income from investments associated with one fund that is assigned to another fund.

As of June 30, 2007, the Treasurer's Office had the following investments:

ADOT Board Funding Obligations	\$ 200,000,000	
Commercial Paper	2,289,156,840

TOTAL INVESTMENTS \$ 12,047,268,559

STATE OF ARIZONA OFFICE OF THE TREASURER NOTES TO FINANCIAL STATEMENTS June 30, 2007

NOTE 2 - ASSETS (Cont'd)

The investments in the Shares in Fixed-Income Pool include certificates of deposit, commercial paper, corporate collateralized mortgage obligations, corporate notes, money market mutual funds, U.S. Agency Mortgage Backed Securities, U.S. Agency Securities, and U.S Treasury Securities. The investments of Shares in S&P 400 and S&P 500 index pools are domestic equity investments. For presentation purposes of the GASB 40 disclosures, the Shares in Fixed-Income Pool securities are included and the domestic equity investments are excluded below.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the holder of the investment. A.R.S. and the Treasurer's Investment Policy require that commercial paper must be rated P1 by Moody's Investor Service or A1 or better by Standard and Poor's Ratings Service. Corporate bonds, debentures, and notes must carry a minimum Baa or better rating from Moody's Investor Service or a BBB or better rating from Standard and Poor's Ratings Service. For securities not rated by Moody's, Fitch rating information is used. There is no statute or investment policy on ratings or credit quality for obligations issued by the U.S. government or its agencies or repurchase agreements. The underlying securities for repurchase agreements must be explicitly guaranteed by the U.S. government.

The pooled investments are not rated by a nationally recognized statistical rating organization. The investments within the pools are rated, monitored and reported monthly.

The following table presents the ratings with the greatest degree of risk for each investment type as of June 30, 2007, using Standard and Poor's rating scale:

CREDIT RISK - CREDIT QUALITY

U.S. Agency Zeroes & Strips

STATE OF ARIZONA OFFICE OF THE TREASURER NOTES TO FINANCIAL STATEMENTS June 30, 2007

NOTE 2 - ASSETS (Cont'd)

Although the U.S. Agency Securities listed in the table are not backed by the full faith and credit of the federal government, investors generally treat agency securities as if they had negligible credit risk. Because of the importance of the agencies in promoting public policy, there is a widespread view that the federal government would prevent an agency or government-sponsored enterprise from defaulting on its debt obligations.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. Arizona statutes do not include a requirement for concentration of credit risk. The State Treasurer's policy is to diversify the investment portfolio to minimize losses due to various circumstances, including issuer defaults, market price changes, non-earning assets, technical complications leading to a temporary lack of liquidity, an overconcentration of assets in a specific maturity, specific issuer, a specific geographical distribution, or a specific class of securities. The diversification policy provides that no more than five percent of the total of each pool or fund (defined as five percent of the prior month's ending amortized book value on the date purchased), or no more than five percent of the issues outstanding, whichever is less, shall be invested in securities issued by a single corporation and its subsidiaries/affiliates. This policy applies only to the LGIP, the LGIP Long-Term, the State Agencies II, and the Endowment Fixed Income Pools. Securities issued by the federal government or its agencies, sponsored agencies, corporations, sponsored corporations or instrumentalities are exempt.

As of June 30, 2007, investments in any one issuer that represents 5 percent or more of the State Treasurer's investments fair value, which are reported as U.S. Agency Securities, U.S. Agency Zeroes & Strips, and U.S. Agency Mortgage Backed Securities investment types, are as follows:

Issuer Name	Fair Value	Percentage
Federal National Mortgage Association	\$ 1,236,247,803	10.26%
Federal Home Loan Mortgage Corp.	1,072,977,228	8.91%

TOTAL	\$ 3,221,869,372	26.75%

STATE OF ARIZONA OFFICE OF THE TREASURER NOTES TO FINANCIAL STATEMENTS June 30, 2007

NOTE 2 - ASSETS (Cont'd)

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

A.R.S. address the maximum maturity for local government investments and maximum duration for general fund operating money investments. The Treasurer's investment policy incorporates the A.R.S. limitations and sets forth various thresholds or parameters relating to interest rate risk in accordance with each investment pool portfolio structure. The policy provides either maturity or duration limitations for various investment pools. The Treasurer manages its exposure to interest rate risk by purchasing a combination of shorter term and longer term investments and timing cash flows from maturities to meet projected cash flow and liquidity needs of the participants. The interest rate risk inherent in the portfolio is monitored monthly by measuring the weighted average maturity and/or duration.

At June 30, 2007, the State Treasurer's office had the following investment in debt securities:

INVESTMENT TYPE	FAIR VALUE	WEIGHTED AVG MATURITY(YEARS)
ADOT Board Funding Obligations	\$ 200,000,000	0.27

NOTE 2 - ASSETS (Cont'd)

As of June 30, 2007, \$2,349,455,538 or 21.96% of the portfolio for debt securities were considered highly sensitive to interest rate changes:

Corporate Securities with coupon tied to LIBOR plus/minus a fixed basis point amount which resets from monthly to semiannually.

\$ 1,003,576,327

U.S. Agency Securities with coupon tied to LIBOR plus/minus a fixed basis point amount which resets monthly to semiannually.

Internal Investment Pools

Deposits made with the State Treasurer by State Agencies with statutory authority to invest and all General Fund monies are invested in various pooled funds. The State Agencies, Board Funding Obligations, School Facilities Board and Permanent Endowment Land Trust pools are internal investment pools. The pools are not required to register (and are not registered) with the Securities and Exchange Commission under the 1940 Investments Advisors Act. The activity and performance of the pools are reviewed monthly by the State Board of Investment in accordance with A.R.S. §35-311.

The fair value of investments is measured on a monthly basis.

Participant shares are purchased and sold based on the Net Asset Value (NAV) of the shares. The NAV is determined by dividing the fair value of the portfolio by the total shares outstanding.

External Investment Pools

The Local Government Investment Pool (LGIP), Local Government Investment Pool-Government (LGIP-GOV) and Local Government Investment Pool – Long-Term (LGIP-LT) are external investment pools. The pools are not required to register (and are not registered) with the Securities and Exchange Commission under the 1940 Investments Advisors Act. The activity and performance of the pools are reviewed monthly by the State Board of Investment in accordance with A.R.S. §35-311.

The LGIP's share of the National Century Financial Enterprises (NCFE) NPF-XII bond value of \$131 million was transferred in 2003 to the Local Government Investment/NCFE - Pool 55 pending an investigation of possible fraud and violations of federal and state laws by the NCFE. The transfer was made to provide for the decline in fair value of the NPF-XII securities held by LGIP.

In April of 2004, the United States Bankruptcy Court for the Southern District of Ohio entered an order confirming the NCFE's Joint Plan of Liquidation. During the current year, approximately \$16.8 million was received as payout of funds being held by both the Indenture Trustee for NPF-XII securities and from a settlement reached against PricewaterhouseCoopers. As of June 30, 2007, the payout was distributed and the Local Government Investment/NCFE - Pool 55 balance was reduced to \$63.3 million. The likelihood of recovering the remaining balance is unknown.

The fair value of investments is measured on a monthly basis.

Participant shares are purchased and sold based on the Net Asset Value (NAV) of the shares. The NAV is determined by dividing the fair value of the portfolio by the total shares outstanding.

The State Treasurer's Office does not contract with an outside insurer in order to guarantee the value of the portfolio or the price of shares redeemed. The State Treasurer's Office only makes investments that are registered with the Securities and Exchange Commission or issued directly by the U.S. Treasury and federal agencies. The State Treasurer's Office is not an involuntary participant in another entity's external investment pool. The State Treasurer's Office is not aware of any involuntary participation in the pools. Participants meeting the criteria established under A.R.S. §35-316 are eligible to participate in the pools and are not required to disclose the reason for requesting the account.

NOTE 3 - MONIES ON DEPOSIT

The State Treasurer holds monies for state agencies, other political subdivisions (primarily counties, cities, and towns), and public entities. The unaudited detail of those monies, as recorded on the Uniform Statewide Accounting System (USAS) at June 30, 2007, is set forth in the supplemental information section titled, "Summary of Cash on Deposit with Treasurer".

The difference between the amounts presented on the summary and total liabilities and net assets equity reported on the Statement of Fiduciary Net Assets is the result of timing differences and other reconciling items.

NOTE 4 - CHANGE IN REPORTING ENTITY

As required by governmental accounting and financial reporting standards, the LGIP-LT pool is reported as an investment trust fund, beginning July 1, 2006. Previously, the pool was combined with the LGIP pool and reported as the LGIP investment trust fund. This change constitutes a change in reporting entity.

Beginning net assets have been restated as follows:

	Local Government Investment Pool (LGIP)	Local Government Investment Pool - Long-Term (LGIP-LT)	
Ending net assets, June 30, 2006, as previously reported Adjustment due to change in reporting entity	\$ 3,573,440,652 (40,687,904)	\$ 0 40,687,904	
Beginning net assets, July 1, 2006, as restated	\$ 3,532,752,748	\$ 40,687,904	

STATE OF ARIZONA OFFICE OF THE TREASURER NOTES TO FINANCIAL STATEMENTS June 30, 2007

NOTE 5 - CUSTODIAL SECURITIES

In accordance with Arizona Revised Statutes, various state agencies deposit securities with the Treasurer for safekeeping. STATE OF ARIZONA OFFICE OF THE TREASURER NOTE TO SUMMARY OF CASH ON DEPOSIT WITH TREASURER June 30, 2007

(UNAUDITED)

NOTE -

The Summary of Cash on Deposit with Treasurer schedule presents a detail summary of the monies the State Treasurer holds for state agencies, other political subdivisions (primarily counties, cities, and towns), and public entities for the year ended June 30, 2007, as recorded on the Uniform Statewide Accounting System (USAS) on essentially a cash basis.
